

## Breakpoints

## Components

**Salade** .checkbox  
 **Tomate** .radio  
 **Oignon** <select>  
 **Tomate** .switch  
 **Oignon** <select>  
 **Tomate** .icon-arrow--  
 **Oignon** .nav-button

alert default	button default	tag default	badge
.alert	.btn	.tag	.badge
.alert--primary	.btn--primary	.tag--primary	.badge--primary
.alert--success	.btn--success	.tag--success	.badge--success
.alert--warning	.btn--warning	.tag--warning	.badge--warning
.alert--danger	.btn--danger	.tag--danger	.badge--danger
.alert--info	.btn--info	.tag--info	.badge--info
.alert--inverse	.btn--inverse	.tag--inverse	.badge--inverse
.alert--ghost	.btn--ghost	.tag--ghost	.badge--ghost

**t n**  
**m r s**  
**p b m**  
**l l**

margin | padding  
top | right | bottom | left  
none | small | medium | large  
ex. .mtl → margin-top large

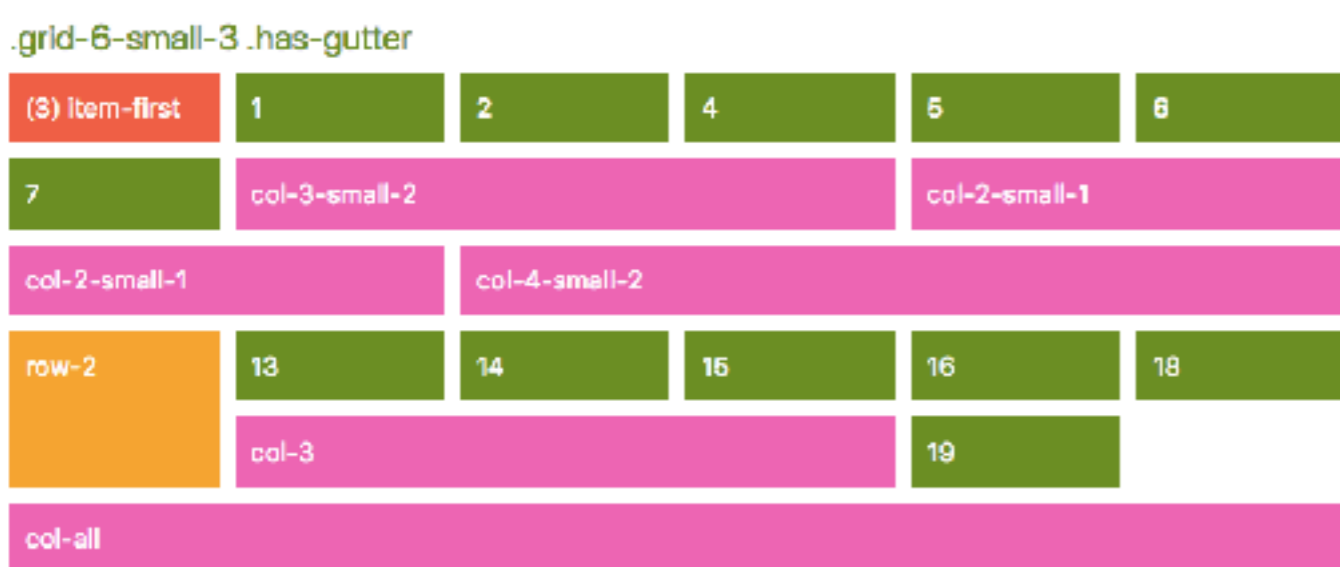

**.w \* \***  
**\* p**

width + value (+ pixel)  
ex. .w30 → width: 30%;  
ex. .w100p → width: 100px;

## Utility classes

## Grillade container

- .grid**  
one line grid (equal width children)
- .grid-number**  
multi-column grid (1 to 12)  
ex. .grid-6 → 6 columns grid
- .grid-number-small-number2**  
multi-column grid with intermediate breakpoint  
ex. .grid-4-small-2 → 2 columns (< medium) then 4 columns
- .has-gutter-value**  
optional for gutters (.has-gutter | .has-gutter-l | .has-gutter-xl)  
ex. .grid-8 .has-gutter → 8 columns grid with small gutter

## Grillade children

- .col-number**  
number of column spanning (1 to 12)  
ex. .col-2 → items is 2 columns width
- .row-number**  
number of rows spanning (1 to 12)  
ex. .row-3 → items is 3 rows height
- .col-all | .row-all**  
all columns or rows spanning  
ex. .col-all → items spans all columns
- .col-number-small-number2**  
spanning with intermediate breakpoint  
ex. .col-4-small-2 → 2 columns (< medium) then 4 columns  
ex. .col-2-small-all → all columns (< medium) then 2 columns
- .item-first | .item-last**  
item will appear first or last in grid
- .grid-offset**  
item leaves empty space in grid

## Spacers

- \$spacer-tiny** : .5rem
- \$spacer-small** : 1rem
- \$spacer-medium** : 2rem
- \$spacer-large** : 4rem
- \$spacer-extra-large** : 8rem
- \$spacer-ultra-large** : 16rem

## Alignements

- .left** : block to left
- .right** : block to right
- .center** : centered block
- .txtright** : inline to right
- .txtcenter** : inline to center
- .fl** : float left
- .fr** : float right
- .clear** : clear both
- .clearfix** : float container
- .bfc** : block formatting context
- .inbl** : inline-block
- .flex-container**
- .flex-container--column**
- .item-fluid**
- .item-center**
- .item-first | .item-medium | .item-last**
